"There is a time when the best riders
are having what we term an off day. I
would say to the new rider, Don't be
afraid of anyone. When you start in a
road race, don't let your nerves be all
unstrung thinking about the race and
racers. They are all human like yourself and you can't be more than beaten.
If the race is fifteen miles, don't do all
your riding while you are leading the
"scratch" and passing along the streets
where the pavements are crowded with
the admirers of the different competitors. Before you make your jump.ride
at a fairly good cilp, until you feel that
your blood has begun to circulate. Then,
when you begin to warm up, put your
whole strength into your work and get
mad if you lag, When you are real
mad, you can always ride faster. Many
times I have been standing at the
seratch waiting for the crack of the
pistol that would let me get after the
bunch and some one in the crowd that
had a man on the three minute mark,
would say, 'Spider, you ain't in it. You
ain't got the push to catch — 'At such
remarks I have gotten so angry that I
would feel that I could catch "Zimmy"
if he had thirty minutes in fifteen
miles."

make the effort. It isn't altogether a question of beauty. It's largely a matter of health. The bloom and glow of health go far toward bringing beauty. A clear skin, bright eyes, red lips and the vivacity which bodily good feeling brings, will make even a homely woman handsome. Half of the women one meets are semi-invalide. Failure to heed the warnings invalids. Failure to heed the warnings of outraged nature—failure to give the help needed by the most delicate and sensitive organs—little troubles ignored until they have become dominant—disease allowed every chance to spread and gain a settled seat—these things bring about the sunken, circled eyes, the hollow cheeks, the pale and sallow akin, the flabby, strengthless flesh, which characterize the sppearance of the woman who suffers from "female weakness." Failure to heed the warning

man who salters from "lemme weak-ness."

Dr. Pierce's Favorite Prescription has cured thousands of suffering women. It is a perfected specific for the troubles peculiar to them. It eradicates the disease, stops the dragging, life-sapping drain, and in a perfectly rational, natural way, builds up the wasted strength. It will bring buoyant health. It will put roses into pale faces—solid flesh in sunken places. It does away with the humiliating examinations and "local treatment" so much dreaded by modestly sensitive women. For thirty years, it has been successfully prescribed by Dr. Pierce, Chief Consulting Physician to the Invalids' Hotel and Surgical Institute at Buffalo, N. V.
